Electrical Permit Fees

1. The fees for initial installation of electrical wiring in one or two family residences shall be \$160. This permit fee shall include three inspections.
2. The fee charged for the initial installation of electrical wiring in a condominium or patio home residence/unit shall be \$100 for the base permit, and \$.25 for each ampere at the service entrance up to and including 600 amperes. The fee shall be \$.50 for each ampere over 600 amperes. This permit fee shall include three inspections.
3. The fee charged for service upgrade, burnout, new service, repairs or additional wiring in a one or two-family, condominium or patio home residence shall be \$50, which shall include one inspection.
4. The fee for installation of new electrical wiring other than in a one or two family, condominium or patio home residence shall be \$50 for the base permit, \$25 for each subpanel, \$25 for each dwelling unit in a residential structure other than one or two family residences, and \$.25 for each ampere at the service entrance up to and including 600 amperes. The fee shall be \$.50 for each ampere over 600 amperes. This permit fee shall include two inspections.
5. The fee for rewiring, burnout, new service or repairs in other than one or two family, condominium or patio home residences shall be \$50 plus an additional \$25 per each dwelling unit specifically involved in the work for residential property, or \$25 per each subpanel specifically involved in the work for commercial property. This permit fee shall include one inspection.
6. The fee for the installation of a temporary pole shall be \$50. This permit fee shall include one inspection.
7. The fee for any additional inspections not covered by the initial permit fee shall be \$35. The Department shall have the right not to issue any additional permits to the applicant until the additional inspection fees have been paid in full.
