LOUISVILLE, KENTUCKY
OFFICE OF THE MAYOR

JERRY E. ABRAMSON
MAYOR

February 26, 2009

To The Citizens of Louisville:

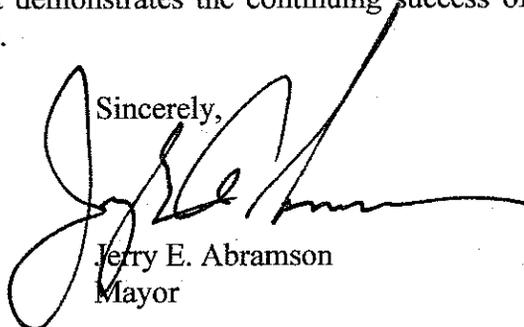

I am pleased to present the Comprehensive Annual Financial Report of the Louisville Metro Government for the fiscal year ended June 30, 2008. Over the past few years, we have laid out a vision for a stronger, safer Louisville and continued to invest in improvements that are paying off for our citizens and our hometown. This fiscal year we continued to make progress, despite soaring increases in mandated spending for employee pensions, health insurance and other personnel costs that consume Metro's economically sensitive revenues.

During fiscal year 2008, Louisville Metro Government continued to invest in the MetroSafe Emergency Communications Network, a headquarters and technology system to better connect our emergency responders and improve response to citizens in need. This fiscal year we began construction on two firehouses and continued working on developing designs for our 21st Century Fire plan, the largest financial investment in fire modernization in the city's history. We broke ground on the new Animal Services center and adoption complex. Louisville Metro continued to improve public safety, foster job growth and economic expansion, define Louisville as a "City of Parks", strengthen neighborhoods, and make government more efficient and effective.

This is the sixth annual report issued for the consolidated government, since the merger of the City of Louisville and Jefferson County governments on January 6, 2003. As a result of prudent fiscal management, the undesignated fund balance at the close of fiscal year 2008 increased to \$65.4 million, or about 13 percent of total general fund expenditures. This annual report reflects a government that is financially solid, despite a global economic downturn that poses great fiscal challenges for local governments.

As a result of our continued strong financial operations and management policies, two rating agencies, Standard and Poor's and Fitch, recently reconfirmed AA+ long-term ratings on Louisville Metro. This rating reflects a diverse economic base anchored by strong businesses in the Louisville community, including large health service and transportation sectors and a thriving entertainment district. This year's financial report demonstrates the continuing success of our efforts to better serve the citizens of Louisville Metro.

Sincerely,

Jerry E. Abramson
Mayor

DEPARTMENT OF FINANCE & ADMINISTRATION
LOUISVILLE, KENTUCKY

JERRY E. ABRAMSON
MAYOR

JANE C. DRISKELL
CHIEF FINANCIAL OFFICER

February 26, 2009

To the Citizens of Metro Louisville:

As the Interim Chief Financial Officer and former CFO for the Louisville Metro Government, we have the distinct pleasure of submitting the Comprehensive Annual Financial Report ("CAFR") for the year ended June 30, 2008. This is the sixth CAFR issued for Metro Government under the new merged government. On January 6, 2003 the Jefferson County Fiscal Court and the City of Louisville Governments merged and formed a new entity called the Louisville/Jefferson County Metropolitan Government ("Louisville Metro Government").

We have overseen completion of this CAFR. Responsibility for the accuracy, completeness and fairness of the data, including all disclosures, rests with the management of Louisville Metro Government. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to report fairly the financial position and results of operations of Louisville Metro Government. All disclosures necessary to enable the reader to gain an understanding of Louisville Metro Government's financial activities are included. There were no changes to any financial policies that had a significant impact on the current year's financial statements.

Louisville Metro Government is a public body corporate and politic, duly created and existing as a political subdivision of the Commonwealth of Kentucky under the Constitution and laws of the Commonwealth. The Metro Government is governed by an elected Mayor and the Metro Council composed of twenty-six council members (elected from each of the twenty-six council districts for staggered terms initially commencing on January 6, 2003, and eventually all extending for four years). All executive and administrative power of the consolidated local government is vested in the office of the Mayor. As outlined in the organizational chart included in this report, the administration of Louisville Metro Government has divided operations into a 12-department structure.

Louisville Metro Government provides some of the following services: public protection and safety, streets and roads, planning and zoning, public improvements and community development, sanitation, public health and social services, parks, and other administrative services.

Budgets are adopted consistent with generally accepted accounting principles. On or before June 1 of each year, pursuant to state statute, the Mayor proposes an Executive Budget to the Metro Council. On or before June 30 of each year, as required by state statute, the Metro Council adopts the Executive Budget as it may have been amended, as the approved budget for the fiscal year beginning July 1. An affirmative vote of a majority of the Metro Council is required to change the proposed appropriations, to amend the budget once it has been approved, or to approve any supplemental appropriations. All budget adjustments at the department level must be approved by the Chief Financial Officer consistent with the approved budget. The capital improvements budget and program for Louisville Metro Government is prepared annually to include a program of proposed capital expenditures for the ensuing fiscal year and the four fiscal years thereafter.

The 2008 CAFR reflects a government that continues to be financially strong in a local economy that continues to be stable. In fiscal year 2009, Louisville Metro Government announced a projected revenue shortfall, but has imposed restrictions to compensate for these differences. The primary reasons for the decrease in revenues are a result of increased unemployment and lower business earnings, which is producing lower-than-expected occupational taxes. This letter should be read in conjunction with the Management's Discussion & Analysis, beginning on page 5 of this report.

FINANCIAL INFORMATION

Management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of Louisville Metro Government are protected from loss, theft or misuse, and to ensure that adequate accounting data is compiled to allow for the presentation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: a) the cost of a control should not exceed the benefits likely to be derived, and b) the valuation of costs and benefits requires estimates and judgments by management.

Single Audit. As a recipient of federal and state assistance, Louisville Metro Government is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by management.

Louisville Metro Government is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and the Single Audit Act Amendments of 1996 and U.S. Office of Management and Budget Circular A-133, Audits of State and Local Governments. Information related to this single audit, including the Schedule of Expenditures of Federal Awards, findings and recommendations, and auditor's reports on the internal control structure and compliance with applicable laws and regulations, is provided in a separate report.

As a part of Louisville Metro Government's single audit described above, tests are made to determine the adequacy of the internal control structure, including that portion related to federal financial assistance programs, as well as to determine that we have complied with applicable

laws and regulations. Louisville Metro Government believes that the statements and schedules included in the financial section of this report continue to meet its responsibility for sound financial management.

OTHER INFORMATION

Independent Audit. Kentucky law (KRS 64.810) allows the Auditor of Public Accounts (“APA”) to perform the annual audit of the funds of Louisville Metro Government. The APA has granted permission for Louisville Metro Government to employ a private certified public accounting (“CPA”) firm to conduct the audits of the basic financial statement for fiscal year 2008. The APA has also elected to conduct the audits related to the Housing and Family Services Department, and have issued a separate report dated February 16, 2009. The results of the audit conducted by the APA will be incorporated into the overall audits of Louisville Metro Government.

A copy of the Independent Auditor’s report is included in this report. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the federal Single Audit Act of 1984, Single Audit Amendments of 1996, Government Auditing Standards and the Office of Management and Budget Circular A-133.

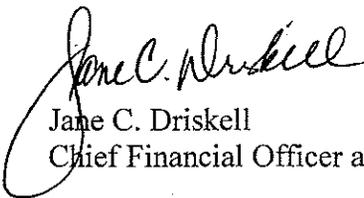

Awards. The Government Finance Officers Association of the United States and Canada (“GFOA”) awarded a Certificate of Achievement for Excellence in Financial Reporting for the fiscal year ended June 30, 2007. Louisville Metro Government has achieved this prestigious award for four consecutive years (since inception of the merged government in 2003). In order to be awarded a Certificate of Achievement, the government must publish an easily readable and efficiently organized CAFR that satisfies both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only.

Acknowledgments. The preparation of the sixth CAFR for Louisville Metro Government was made possible by the dedicated service of the staff of the Department of Finance and Administration. Each member of the department has my sincere appreciation for the contributions made in the preparation of this report for Louisville Metro.

Respectfully submitted,

Kevin Moore
Interim Chief Financial Officer

Jane C. Driskell

Chief Financial Officer as of June 30, 2008

Certificate of Achievement for Excellence in Financial Reporting

Presented to

Louisville-Jefferson County
Metro Government, Kentucky

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2007

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

DEPARTMENT OF FINANCE

JANE C. DRISKELL	CHIEF FINANCIAL OFFICER
KEVIN MOORE	INTERIM CHIEF FINANCIAL OFFICER
KIMBALL LIVESAY	DIRECTOR OF ACCOUNTING

Independent Auditors' Report

Honorable Jerry Abramson, Mayor and
The Louisville Metro Council

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Louisville/Jefferson County Metro Government ("Metro Government") as of and for the year ended June 30, 2008, which collectively comprise Metro Government's basic financial statements, as listed in the accompanying table of contents. These financial statements are the responsibility of the Metro Government's management. Our responsibility is to express opinions on these financial statements based on our audit.

We did not audit the financial statements of the Transit Authority of River City, Inc. ("TARC") and the Louisville Science Center ("LSC"). Also, we did not audit the statement of revenues and expenditures of the Metro Louisville Department of Housing and Family Services ("HFS"). Those statements were audited by other auditors whose reports thereon have been furnished to us, and our opinions, insofar as it relates to the amounts included for those entities, are based on the reports of the other auditors.

The following chart reflects the total assets and revenues, as applicable, for the entities referred to in the previous paragraph in relation to total Metro Government amounts.

	Percent of <u>Assets</u>	Percent of <u>Revenues</u>
Government-Wide Financial Statements:		
Component Units	2%	18%
Primary Government - Governmental Activities		5%
Fund Financial Statements		
Component Units	2%	17%

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

The auditor of HFS, as discussed in the second paragraph above, issued a disclaimer of opinion on HFS's statement of revenues and expenditures. Their report, dated February 16, 2009, stated that HFS did not maintain adequate supporting documentation for the journal vouchers recorded throughout the year, did not follow existing policies and procedures or did not have any written policies and procedures for many operations. The HFS auditors were not able to apply other audit

procedures to satisfy themselves as to journal voucher transactions or overcome audit risk within HFS. As such, they stated that the scope of their work was not sufficient to enable them to express, and they did not express, an opinion on the HFS statement of revenues and expenditures.

Because HFS financial activity is such a large portion of Metro Government's Special Revenue Fund, and because of the disclaimer of opinion referred to the preceding paragraph, we are unable to express, and we do not express, an opinion on Metro Government's Special Revenue Fund.

In our opinion, based on our audit and the reports of other auditors, except for the effects of such adjustments, if any, that may have resulted if HFS had been able to be audited, the financial statements referred to in the first paragraph present fairly, in all material respects the respective financial position of the governmental activities, each major fund (except for the Special Revenue Fund as discussed above), and the aggregate remaining fund information of Metro Government, as of June 30, 2008, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In addition, in our opinion, based on our audit and the reports of other auditors, the financial statements referred to in the first paragraph present fairly, in all material respects, the aggregate discretely presented component units of Metro Government, as of June 30, 2008, and the respective changes in financial position and cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis on pages 5 through 12, the budgetary comparison information on page 79, and the pension information related to funding progress on page 80 are not required parts of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We and the other auditors have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Metro Government's basic financial statements. The introductory section, the combining and individual nonmajor fund financial statements, and the statistical section, listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based upon our audit and the reports of other auditors, are fairly presented in all material respects in relation to the Metro Government's basic financial statements taken as a whole. The information presented in the introductory and statistical sections has not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, accordingly, we express no opinion on them.

In accordance with *Government Auditing Standards*, we have also issued a report dated February 26, 2009 on our consideration of the Metro Government's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

STROTHMAN & COMPANY PSC

Louisville, Kentucky

THIS PAGE INTENTIONALLY LEFT BLANK

**LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
For the Year Ended June 30, 2008**

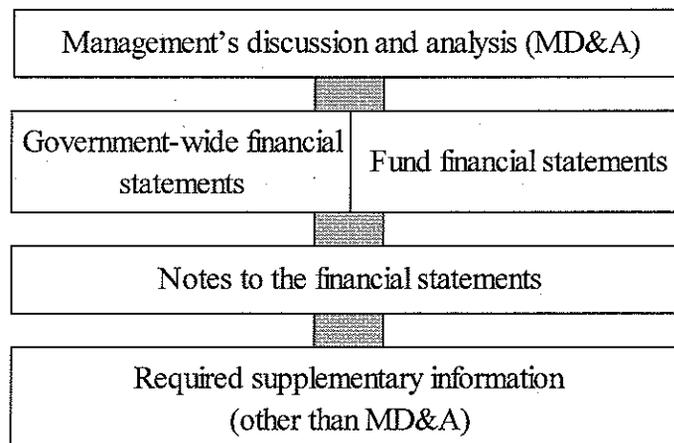

Our discussion and analysis of Louisville/Jefferson County Metro Government's financial performance provides an overview of Metro Government's financial activities for the fiscal year ended June 30, 2008. Please read it in conjunction with the Metro Government's financial statements, which begin on page 15.

Financial Highlights

Metro Government first implemented Governmental Accounting Standards Board ("GASB") Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, for the fiscal year 2002.

- Total net assets decreased by \$17 million.
- Total assets of the primary government exceeded total liabilities by \$605 million at the close of fiscal year 2008.
- At fiscal year-end, Metro Governmental funds reported a combined ending fund balance of \$199.4 million.

Using This Annual Report

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities (on pages 15-17) provide information about the activities of Metro Government as a whole and present a longer-term view of the Metro Government's finances.

Fund financial statements begin on page 18. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Metro Government's operations in more detail than the government-wide statements by providing information about the Metro Government's most significant funds.

The remaining statements provide financial information about activities for which the Metro Government acts solely as a trustee or agent for the benefit of those outside of the government.

**LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited), continued
For the Year Ended June 30, 2008**

Reporting the Metro Government as a Whole

The Statement of Net Assets and the Statement of Activities

The analysis of the Metro Government as a whole begins on page 15 with the Government-Wide Financial Statements. One of the most important questions raised about the Metro Government's finances is whether the Metro Government as a whole is better off or worse off as a result of the year's activities. The Statement of Net Assets and the Statement of Activities report information about the Metro Government as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Metro Government's net assets and changes in them. Metro Government's net assets, the difference between assets, what the citizens own, and liabilities, what the citizens owe, is one way to measure the Metro Government's financial health, or financial position. Increases or decreases in the Metro Government's net assets over time are one indicator of whether its financial health is improving or deteriorating. Additional non-financial factors should be considered, such as changes in the Metro Government's property tax base and the condition of the Metro Government's capital assets (roads, buildings, etc.) in assessing the overall health of the Metro Government.

The overall financial position of the Metro Government continues to be sound.

The Government-Wide Financial Statements of the Metro Government can be divided into three categories:

- **Governmental activities:** Most of the Metro Government's basic services are reported here, including the police, fire, general administration, streets, and parks. Occupational taxes, franchise fees, fines, and state and federal grants finance most of these activities.
- **Business-type activities:** If a fee is charged to customers to help the Metro Government cover all or most of the cost of certain services it provides, those activities are considered to be business-type activities in most cases. The primary government did not report any business-type activities in fiscal year 2008.
- **Discretely Presented Component units:** The Metro Government includes the Louisville Water Company, the Parking Authority of River City, Inc., the Transit Authority of River City, Inc., the Louisville/Jefferson County Riverport Authority, the Louisville/Jefferson County Metropolitan Sewer District, and the Louisville Science Center in its report. These legally separate component units are important because the Metro Government is financially accountable for them, and in the case of the Louisville Water Company, 100% of its stock is owned by the Metro Government. All of the component units separately issue their own respective financial statements, including MD&A, which should be read in conjunction with these statements.

**LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT

Reporting the Metro Government's Most Significant Funds

Fund Financial Statements

The fund financial statements begin on page 18 and provide detailed information about the most significant funds – not the Metro Government as a whole. Some funds are required to be established by State law and by bond covenants. However, other funds are established, as needed, to help control and manage money for particular purposes (such as the Special Purpose Fund) or to show that Metro Government is meeting legal responsibilities for using certain taxes, grants, and other money (for example, grants received from the U.S. Department of Housing and Urban Development).

The Metro Government's two kinds of funds, governmental and proprietary, use different accounting approaches (as discussed further in footnote 1). The Metro Government also uses fiduciary funds, which are separate funds from the governmental and proprietary funds described below. These funds are not included in the Metro Government's government-wide financial statements.

Governmental funds: Most of the Metro Government's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using accounting methods called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash.

The governmental fund statements provide a detailed short-term view of the Metro Government's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Metro Government's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in a reconciliation following the fund financial statements.

Proprietary funds: Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Assets and Statement of Activities. Metro Government uses internal service funds, such as the Metro Government's Insurance and Risk Management Fund, to report activities that provide supplies and services to the Metro Government's other programs and activities.

Fiduciary funds: Fiduciary funds are used to account for resources held for the benefit of parties outside the government. These funds are not reflected in the government-wide financial statements because the resources of these funds are not available to support the Metro Government's own activities or programs. The basis of accounting for fiduciary funds is similar to that of proprietary funds.

**LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited), continued
For the Year Ended June 30, 2008**

Revenues in the General, Special Revenue and Debt Service funds increased by approximately \$13 million. Tax revenue continued its trend of a modest increase over the preceding year, with the increase divided between property taxes and occupational taxes. Dividends and charges for services increased over fiscal year 2007 as well. Expenditures in these same funds also increased by approximately \$28.2 million. Increased expenditures occurred primarily in the General Fund as a result of operations. Total fund balances for governmental funds decreased \$22.9 million, due to increased expenditures as in the General Fund and expected transfers of funds to capital.

Component Unit Activities

The Louisville Water Company's operating income increased 26.03% over last year primarily due to an increase in water sales. The Parking Authority of River City, Inc. reported a 20.7% increase in operating income from last year, mainly from an increase in parking facility revenue. The Transit Authority of River City, Inc.'s operating loss increased 2.4% over the prior year as a result of increased cost of operations in fiscal year 2008. The Louisville and Jefferson County Riverport Authority reported a decrease of \$1,274,748 in operating income due to a large increase in cost of operations in fiscal year 2008 versus 2007. The Metropolitan Sewer District's operating income increased 111.2% due to an increase in sewer charges. The Louisville Science Center reported a decrease of 20.3% in operating loss as a result of decreased costs of operation.

General Fund Budgetary Highlights

Actual expenditures were \$80.8 million below the final budget amounts for various reasons. The largest variance between budget and actual amounts relate to fleet and depreciation adjustments which were approximately \$25 million in fiscal year 2008. These amounts are included in budgeted recoveries (within Charges for Service) and as budgeted departmental expenditures, but are not reflected in actual totals presented in the CAFR because they are interagency charges.

Debt service for Metro is budgeted in the general fund, but is reflected as transfers out of the general fund and recorded as expenditures of the debt service funds. Other variances are the result of timing of operations, and some of these funds will be carried forward to the fiscal year 2008 to offset future related expenditures. On the other hand, resources available for appropriation were \$27.2 million below the final budget amounts due to results of operations for fiscal year 2008.

Capital Asset And Debt Administration

Capital Assets

At the end of June 30, 2008, the Metro Government and its component units have a broad range of capital assets, as shown in the following table:

LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT			
CAPITAL ASSETS			
(net of depreciation)			
	<u>2007</u>	<u>2008</u>	Total Percentage Change 2007-2008
Land	\$ 291,345,646	\$ 295,248,986	1.3%
Land improvements	49,082,706	46,191,343	-5.9%
Buildings	217,029,543	213,295,262	-1.7%
Machinery and equipment	14,316,373	12,811,495	-10.5%
Vehicles	31,304,514	31,156,109	-0.5%
Works of art	12,017,515	8,792,882	-26.8%
Infrastructure	142,981,827	116,679,736	-18.4%
Construction in progress	49,238,597	70,830,068	43.9%
Total Metro	<u>807,316,721</u>	<u>795,005,881</u>	-1.5%
Component Units	2,650,045,621	2,721,996,387	2.7%
Grand Total	<u>\$ 3,457,362,342</u>	<u>\$ 3,517,002,268</u>	1.7%

As of June 30, 2008, the primary government and its component units had various commitments for future capital expenditures. See Note 4 for additional detail on Capital Assets.

Debt Administration

At year-end, the Metro Government and its component units have outstanding debt as shown in the following table:

LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT			
OUTSTANDING DEBT ADMINISTRATION			
(amounts in thousands)			
	<u>2007</u>	<u>2008</u>	Total Percentage Change 2007-2008
General obligation debt	\$ 247,853	\$ 226,894	-8.5%
Revenue bonds	128,043	128,131	0.1%
Note	57		-100.0%
Total Metro	<u>375,953</u>	<u>355,025</u>	-5.6%
Component Units	1,626,853	1,702,027	4.6%
Grand Total	<u>\$ 2,002,806</u>	<u>\$ 2,057,052</u>	2.7%

Continued

**LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited), continued
For the Year Ended June 30, 2008**

Metro Government assumed all long-term debt of the former City of Louisville and Jefferson County upon merger in January 2003. During the year, total debt of the Metro Government and its component units increased by \$54.2 million. Additional information on the Metro Government's long-term debt activity can be found in Note 8 of this report.

Future Economic Factors

Downtown Louisville continues to experience growth and development, with future plans including building a downtown, multi-purpose arena and a planned expansion of the entertainment district on Fourth Street. There are also plans for additional downtown medical center expansions and additional plans for more than a dozen downtown housing developments.

Fiscal year 2009 has presented various budget challenges, but Metro has appropriately reduced budgets to compensate for any economic difficulties.

Contacting Metro Government's Financial Management

This financial report is designed to provide citizens, taxpayers, customers, investors and creditors with a general overview of Metro Government's finances and to show Metro Government's accountability for the money it receives. If you have questions about this report or need additional information, contact Metro Government's Department of Finance, 611 West Jefferson Street, Louisville, Kentucky, 40202.

The accompanying notes are an integral part of the financial statements.

**LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
For the Year Ended June 30, 2008**

Net change in fund balances--total governmental funds	\$ (22,930,634)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. This is the amount by which the increase in capital assets of \$59,591,356, was less than depreciation of \$66,572,883 in the governmental funds, less \$102,753 in the proprietary funds, for the current period.	(6,878,774)
In the Statement of Activities, only the loss on the disposal of assets is reported, while in the governmental funds, the proceeds from the disposal increase financial resources. Thus, the change in net assets differs from the change in fund balance by the basis of the assets disposed.	(5,319,862)
Deferred revenues added to net assets in the prior year are deducted in the current year.	(3,388,560)
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.	3,095,701
Repayment of \$25,960,000 of bond principal plus \$129,000 of capital lease and notes payable payments is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of Net Assets.	26,089,000
The change in compensated absences is reported in the Statement of Activities and does not require the use of current financial resources and therefore, the change is not reported as an expenditure in governmental funds.	(5,470,077)
Internal Service Funds are used by management to charge the costs of certain activities, such as insurance to individual funds. The change in net assets of the internal service funds is reported with governmental activities.	2,993,443
Governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. Accreted interest of \$4,824,175 and amortization and other charges of \$332,802 are also shown as differences for the year.	(5,156,977)
Change in net assets of governmental activities	<u>\$ (16,966,740)</u>

The accompanying notes are an integral part of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS

**LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO THE FINANCIAL STATEMENTS**

June 30, 2008

1. Summary of Significant Accounting Policies

Louisville/Jefferson County Metro Government ("Metro Government") began operations January 6, 2003, and was formed from the merger of the former City of Louisville (founded in 1778 and incorporated in 1828) and Jefferson County, Kentucky (created in 1780). Metro Government operates under a Mayor-Council form of government and provides the following services: public health and safety, streets and roads, sanitation, social services, culture-recreation, public improvements, planning and zoning, and general administrative services.

The following is a summary of the significant accounting policies:

A. Basis of Presentation

The financial statements of Metro Government have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units by the Governmental Accounting Standards Board ("GASB") and the American Institute of Certified Public Accountants ("AICPA").

B. Reporting Entity

In accordance with GASB Statement No. 14, *The Financial Reporting Entity* and No. 39, *Determining Whether Certain Organizations Are Component Units*, Metro Government has included in its financial statements the departments, agencies, boards, commissions, authorities, and corporations that comprise the primary government along with its discretely presented Component Units.

i. Blended Component Units

The following Component Units have been presented as blended Component Units because the boards of the Component Units are substantively the same as the primary government, or the Component Units provide services exclusively or almost exclusively to the primary government.

- The Louisville/Jefferson County Revenue Commission ("Revenue Commission") - The Commissioners of the Revenue Commission are appointed by Metro Government. The Revenue Commission is reported as part of the primary government because its primary purpose is to collect certain taxes and fees on behalf of Metro Government, and to collect and remit debt service requirements on Metro Government's general obligation bonds. To a lesser extent, the Revenue Commission is the collection agent of certain fees and taxes for other local governmental entities.

The Revenue Commission is treated as an internal service fund of the primary government since Metro Government is the primary participant of the Revenue Commission. Amounts held on behalf of other local governmental entities are reflected within a fiduciary fund.

- The Public Properties Corporation ("PPC") - The PPC is a non-profit municipal corporation which is used to account for certain property acquisitions and improvements financed by proceeds from the sale of various First Mortgage Revenue Bonds. It is reported as part of the primary government because its purpose is to issue bonds solely on behalf of Metro Government.

LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2008

1. Summary of Significant Accounting Policies, continued

- The Revenue Finance Corporation - The Revenue Finance Corporation is a non-profit municipal corporation which is used for the acquisition and implementation of public projects financed by increments in tax revenues. It exists solely for the benefit of Metro Government, and is accordingly reported as part of the primary government.
- Capital Projects Corporation ("CPC") - The Mayor, with the approval of the Metro Council, appoints the CPC's governing board. The CPC, a non-profit municipal corporation, was incorporated by the Jefferson County Fiscal Court, succeeded by Metro Government, as its agency and instrumentality in the financing of public improvements and projects of a capital nature. The CPC undertakes projects and issues bonds at the direction of and pursuant to ordinances adopted by the Metro Council. All debt obligations of the CPC are serviced with rental payments made by Metro Government as consideration from annually renewable leases of the financed properties by Metro Government.

Complete financial statements for each of the individual component units may be obtained at Metro Government's Department of Finance, 611 West Jefferson Street, Louisville, Kentucky, 40202.

ii. Discretely Presented Component Units

The Component Units column in the government-wide financial statements includes the financial data of Metro Government's discretely presented component units. They are reported in a separate column to emphasize that they are legally separate from Metro Government. The following six Component Units are included in the reporting entity because the primary government is financially accountable for and is able to impose its will on the organizations.

- Louisville Water Company ("LWC") - The LWC is a legally separate entity that provides water utility services to the residents of the metropolitan area and charges fees for those services. It is shown as a discretely presented component unit because the Metro Government is the sole shareholder, receives a quarterly dividend, and the Mayor appoints a voting majority of the LWC's Board of Directors. Water services valued at \$11,170,365 were provided to Metro Government in lieu of taxes during the year ended December 31, 2007. Complete financial statements of the LWC can be requested from the Louisville Water Company, 550 South Third Street, Louisville, KY 40202.
- Parking Authority of River City, Inc. ("PARC") - PARC is a non-profit corporation, which was established by the former City of Louisville to serve Metro Government's existing parking facility needs and to develop strategies for future needs. PARC also operates several parking garages in the downtown area. PARC is shown as a discretely presented component unit because the Mayor appoints a voting majority of its Board of Directors and Metro Government has the ability to approve or overrule decisions of PARC in financing of new facilities and equipment. Complete financial statements of PARC can be requested from the Parking Authority of River City, 517 South Fourth Street, Louisville, KY 40202.

LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2008

1. Summary of Significant Accounting Policies, continued

- Transit Authority of River City (“TARC”) - TARC is a legally separate entity that operates the mass transit system in the metropolitan area. TARC is shown as a discretely presented component unit because the Mayor appoints a voting majority of its Board of Directors and Metro Government has the ability to approve, disapprove, revise, amend, or otherwise alter TARC’s annual budget. Metro Government does not provide any funding to TARC, but it does administer the Mass Transit Trust Fund, which receives occupational tax revenues and remits those amounts to TARC. Payments to TARC from the Mass Transit Trust Fund for the fiscal year totaled \$40,682,394. Complete financial statements of TARC can be requested from the Transit Authority of River City, 1000 West Broadway, Louisville, KY 40203.
- Louisville and Jefferson County Riverport Authority (“Riverport”) - Riverport is a legally separate entity that acquires, develops, and markets land for operation of a river port industrial complex. Riverport is shown as a discretely presented component unit because the Mayor appoints a voting majority of its Board of Directors, and Metro Government has the ability to impose its will on Riverport’s decisions. Complete financial statements of Riverport can be requested from the Louisville and Jefferson County Riverport Authority, 6900 Riverport Drive, Louisville, KY 40258.
- Louisville and Jefferson County Metropolitan Sewer District (“MSD”) - The MSD is a legally separate entity that provides sewer services to the residents of the metropolitan area and charges fees for those services. MSD is shown as a discretely presented component unit because the Mayor appoints a voting majority of its Board of Directors and Metro Government has the ability to veto, overrule, or modify decisions of MSD regarding expansion of infrastructure and sewage facilities. Metro Government does not provide any funding to MSD. The amount of free services provided in fiscal year 2008 was \$1,450,000. Complete financial statements of MSD can be requested from Louisville and Jefferson County Metropolitan Sewer District, 700 West Liberty Street, Louisville, KY 40202.
- Louisville Science Center, Inc. (“LSC”) - The LSC provides museum exhibits and scientific programs to the public. Financial support is received from admissions, merchandise sales, memberships, parking fees, donations, and an appropriation from Metro Government. It is shown as a discretely presented component unit because the Mayor appoints a voting majority of its Board of Directors. During the year ended June 30, 2008, Metro Government paid \$863,300 as an appropriation to the LSC. Complete financial statements of LSC can be requested from Louisville Science Center, 727 West Main Street, Louisville, KY 40202.

iii. Related Organizations

- Louisville Metro Housing Authority (“Housing Authority”) - The Housing Authority is a legally separate entity that plans for the construction, operation and management of low cost housing projects within the metropolitan area. The Board consists of the Mayor and eight other members appointed by the Mayor and

Continued

LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2008

1. Summary of Significant Accounting Policies, continued

approved by the Metro Council. Financial support is received from the federal government and from fees. The Housing Authority serves as its own fiscal agent, and Metro Government is not financially accountable for the activities of the entity. Metro Government did not provide any funding to the Housing Authority for the year ended June 30, 2008.

- Louisville Regional Airport Authority (“RAA”) - The RAA was created by state statute and is responsible for the operation of Louisville International Airport and Bowman Field, both located in Louisville. The Board consists of eleven members including the Mayor and the Kentucky Secretary of Commerce. Six of the members are appointed by Metro Government and three by the Commonwealth of Kentucky. Metro Government does not provide any funding to the RAA.
- The Louisville and Jefferson County Convention and Visitors Bureau (the “Convention Bureau”) - The Convention Bureau is a legally separate entity created by state statute and operates to promote convention and tourism activity in Louisville and Jefferson County. The Board consists of nine members, six of whom are appointed by Metro Government and three by the Commonwealth of Kentucky. Metro Government does not provide any funding to the Convention Bureau, but the Convention Bureau received \$11,895,023 in transient room taxes collected by the Revenue Commission.

C. Government-wide and Fund Financial Statements

The government-wide financial statements (the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or program. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or program, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources, such as taxes and other items not properly included among program revenues, are reported instead as general revenues. Metro Government allocates certain indirect costs to be included in the program expense reported for individual functions and activities in the government-wide statement of activities.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

1. Summary of Significant Accounting Policies, continued

D. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements, except for agency funds that have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Each fund is a separate accounting entity with a self-balancing set of accounts. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible during the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, Metro Government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims judgments, are recorded only when payment is due.

Revenues susceptible to accrual are property taxes, licenses, interest revenue and charges for services. Occupational taxes, fines, permits and parking meter revenues are not susceptible to accrual because generally they are not measurable until received in cash.

Metro Government reports unearned revenue on its government-wide statement of net assets and deferred revenue on the fund financial statements. Deferred/unearned revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred/unearned revenues also arise when Metro Government receives resources before it has a legal claim to them, as when grant moneys are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when Metro Government has a legal claim to the resources, the liability for unearned revenue is removed from the government-wide statement of net assets and the deferred revenue liability is removed from the fund financial statements, and revenue is recognized.

Funds are classified into three categories: governmental, proprietary and fiduciary.

Metro Government reports the following major governmental funds:

- The General Fund, Metro Government's primary operating fund, which accounts for all of the activities of the general government not required to be accounted for in another fund.
- The Special Revenue Fund, which accounts for the collection and disbursement of earmarked money, primarily federal and state grant money.
- The Capital Projects Fund, which accounts for the acquisition or construction of general capital assets.

Continued

LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2008

1. Summary of Significant Accounting Policies, continued

- Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for the internal service fund include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. All of Metro Government's proprietary activities, except for the internal service fund, qualify and are reported as discretely presented component units; therefore, the primary government does not include a business-type activities column in the government-wide financial statements.
- Internal Service Funds account for the cost of purchased insurance, the operation and administration of the Metro Government's self-insurance programs, and the cost of administering and collecting the Metro Government's occupational tax.
- Fiduciary Funds are used to account for assets held on behalf of outside parties, including other governments. Metro Government reports the following fiduciary funds:
 - The Private Purpose Trust Fund is used to account for a discount loan program.
 - The Pension & Benefit Trust Fund is used to account for the Firefighters' Pension Fund and the Policemen's Retirement Fund.
 - Agency Funds are used to account for assets that Metro Government holds on behalf of others as their agent, including TARC, the Police Property Room, and other agencies.

E. Budgets

Budgets are adopted consistent with generally accepted accounting principles. An annual appropriated budget is adopted for the General Fund. This appropriated budget includes all transfers to capital projects funds for which transfers are designated for subsequent years' capital expenditures or for transfer to other capital or debt service funds or accounts.

Formal budgets are not adopted for the Special Revenue Fund or for the Debt Service Funds because bond indentures and other relevant contractual provisions require specific payments to and from these funds annually and transfers are budgeted in the General Fund to comply with these requirements. All annual appropriations from the General Fund lapse at year-end, except for unexpended grant and encumbered appropriations. Project-length financial plans are presented for all Capital Project Funds.

On or before June 1 of each year, pursuant to state statute, the Mayor proposes an Executive Budget to the Metro Council, incorporating an estimate of revenues and recommended appropriations from the General Fund. The Metro Council may hold hearings and discuss and amend the Executive Budget. On or before June 30 of each year, as required by state statute, the Metro Council adopts the Executive Budget, as it

Continued

**LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO THE FINANCIAL STATEMENTS**

June 30, 2008

1. Summary of Significant Accounting Policies, continued

may have been amended, as the approved budget for the fiscal year beginning July 1. An affirmative vote of a majority of the Metro Council is required to change the proposed appropriations or to revise revenue estimates contained in the Executive Budget. An affirmative vote of the majority of the Metro Council is also required to amend the budget once it has been approved or to approve any supplemental appropriations.

All budget adjustments at the department level must be approved by the Chief Financial Officer consistent with the approved budget.

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrances accounting, under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriations, is utilized in the governmental funds. Encumbrances outstanding at year-end are reported as a reservation of fund balance and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year.

F. Cash Deposits and Investments

Cash and cash equivalents include amounts in demand deposits as well as various short-term investments, which consist of highly liquid investments with maturity of three months or less when purchased. State statutes authorize Metro Government to invest in instruments guaranteed by the U.S. Government or its agencies and in repurchase agreements with banks that conduct business in the state. The Firefighters' Pension Fund and the Policemen's Retirement Fund have no restrictions on the type of investments that they enter into as long as due diligence is exercised. See footnote 2 for additional information.

In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, investments are reported at fair value based on quoted market values.

Certain cash and investment amounts are classified on the statement of net assets as restricted because applicable bond indentures or other legal provisions limit their use. Restricted cash and cash equivalents are included and used for their respective purposes.

G. Taxes Receivable

Net taxes receivable not expected to be collected within sixty days after the close of the fiscal year, thus not available to pay current liabilities at June 30, 2008, have been recorded in the balance sheet of the general fund as deferred revenue and as unearned revenue in the government-wide Statement of Net Assets.

Continued

LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2008

1. Summary of Significant Accounting Policies, continued

This is Metro Government's property tax calendar:

<u>Date</u>	<u>Event</u>
January 1, year of levy	Assessment date
October 1, year of levy	Taxes levied
November 30, year of levy	2% discount allowed
December 31, year of levy	Gross amount due
January 31, following year	5% penalty added
April 7, following year	10% interest plus 10% penalty added to above
May 1, following year	Delinquent date, \$16 penalty added to above

The Jefferson County Clerk collects personal property tax on vehicles when registered. The Jefferson County Sheriff bills and collects all property taxes on real estate and personal property excluding vehicles. Delinquent property bills are turned over to the County Clerk on May 1. Property tax revenues are recognized when levied to the extent that they result in current receivables.

The allowance for uncollectible amounts is composed of tax receivables which have been deemed uncollectible based on a trend analysis of collections over the past five fiscal years, and for loans receivable based on an analysis which mainly considers payments past due.

H. Interfund Receivables/Payables

During the course of operations, certain transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the governmental funds balance sheet. These accounts exist solely to balance transactions between funds and are eliminated on the government-wide statement of net assets.

I. Land Held for Development

Land held for development is stated at cost. Land and related costs are capitalized as incurred and charged to operations as related parcels are sold or otherwise transferred.

J. Inventories and Prepaid Items

Inventories are valued at cost, which approximates market, using the first-in, first-out ("FIFO") method. The costs of certain inventories are recorded as expenditures when purchased.

In the fund financial statements, reported inventories in the general fund are equally offset by a reserve, which indicates that they do not constitute "available spendable resources" even though they are a component of total assets.

Payments made to vendors for goods and services that will benefit periods beyond June 30, 2008 are recorded in assets as prepaid items.

K. Capital Assets and Depreciation

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the governmental activities column in the government-wide financial statements. Metro Government defines capital

Continued

LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2008

1. Summary of Significant Accounting Policies, continued

assets as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of two years.

All purchased capital assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist, including infrastructure acquired prior to June 30, 1980. Donated capital assets are valued at their estimated fair market value on the date received. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable. Depreciation of capital assets for the primary government is computed using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Useful life</u>
Land Improvements	20
Buildings & Improvements	25-40
Machinery & Equipment	5-12
Vehicles	4-20
Treasures	25
Infrastructure	10-40

Information regarding depreciation methods and useful lives of Metro Government's component units is available in each of the respective component unit's financial reports.

L. Compensated Absences

Vested and accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported in the fund's financial statements as an expenditure and a fund liability of the governmental fund that will pay it only when the liability has matured. In the government-wide statement of net assets, the total amount of vested or accumulated vacation leave is reported within the liabilities. Vested or accumulated vacation leave of proprietary funds is recorded as an expense and liability of those funds as the benefits accrue to employees. Vacation pay may be accumulated up to 60 days. Earned vacation pay up to a maximum of 40 days is payable upon termination of employment.

In accordance with GASB Statement No. 16, *Accounting for Compensated Absences*, no liability is recorded for sick pay benefits in the government's fund financial statements, but is reported in the government-wide financial statements. Sick leave, which has no maximum accumulation, is charged to expense when paid.

Qualified participants in the County Employee's Retirement System ("CERS"), under certain circumstances, are eligible to convert accrued sick pay benefits into additional credit for years of service.

M. Long-term Debt and Obligations

In the government-wide financial statements, proprietary fund types in the fund financial statements and component units financial statements, long-term debt and other long-term

Continued

LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2008

1. Summary of Significant Accounting Policies, continued

obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net assets. Bond premiums, discounts, and issuance costs are deferred and amortized over the life of the bonds using the straight line method. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums, discounts, and issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums and discounts on debt issuances are reported as other financing sources or other financing uses, respectively, and issuance costs are reported as debt service expenditures.

N. Claims and Judgments Payable

Claims and judgments payable represents estimates for medical, automobile liability, workers' compensation, and other claims incurred as of June 30, 2008. This liability includes both reported and unreported events. This amount was determined by Metro Government's management and also includes actuarially determined amounts by Metro Government's independent insurance administrators.

O. Reserved Fund Balances

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted for use for a specific purpose.

P. Interfund Transactions

Interfund services provided and used are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures or expenses initially made from it that are properly applicable to another fund are recorded as expenditures or expenses in the reimbursing fund and as reductions of expenditures or expenses in the fund that is reimbursed. All other interfund transactions are reported as operating transfers.

Q. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2008

1. Summary of Significant Accounting Policies, continued

R. Louisville Water Company Dividends

The LWC has a quarterly dividend policy. Because the reporting period of the LWC covers the year ended December 31, 2007, a timing difference arises and causes a difference in the dividends paid and received as illustrated by the following schedule:

Date paid	LWC Dividends Paid	Revenue Commission Dividends Received
March 31, 2007	\$ 3,918,375	
June 30, 2007	3,918,375	
September 30, 2007	3,918,375	\$ 3,918,375
December 31, 2007	6,428,385	6,428,385
March 31, 2008		4,092,576
June 30, 2008		4,092,576
	<u>\$ 18,183,510</u>	<u>\$ 18,531,912</u>

2. Cash Deposits and Investments

A. Pooled Portfolio Investments

The following schedule presents the investments in Metro Government's pooled portfolio as of June 30, 2008, at fair value, with maturities (using the weighted average method), and credit risk ratings (from Moody's Investors Service):

Investment Type	Fair Value	Weighted Average Maturity in Years	Credit Rating
Money Market Mutual Funds	\$ 24,117,981	0.13	Aaa
U.S. Treasury Obligations	8,756,177	1.70	Aaa
U.S. Agency Discount Notes	29,757,299	0.16	Aaa
U.S. Agency Obligations	79,806,829	1.65	Aaa
Commercial Paper	26,963,840	0.10	P1
	<u>\$ 169,402,126</u>		
Portfolio weighted average maturity		0.93

C. Custodial Credit Risk

Custodial credit risk for deposits and investments is the risk that, in the event of failure by a financial institution, Metro Government may not be able to recover the value of its deposits and investments or collateral securities that are in the possession of the financial institution. Metro Government's investment policy dictates that all cash maintained in any financial institution named as a depository be collateralized, the collateral held in the name of the Metro Government, and that investments be registered in the name of the Metro Government. Collateral must be held by an independent third-party custodian.

Metro Government is fully collateralized and all investments were held in the Metro Government's name as of June 30, 2008.

D. Interest Rate Risk

Interest rate risk is the risk that changes in interest rates of investments will adversely affect the fair value of an investment. Metro Government's formal investment policy does limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Investments are made based upon prevailing market conditions at the time of the transaction. According to the Metro Government investment policy, maintenance of adequate liquidity to meet the cash flow needs of Metro is essential. Assets categorized as short-term operating funds will be invested in permitted investments maturing in 12 months or less, with an average weighted maturity not to exceed six months. The core portfolio may be invested in permitted investments with a stated maturity of up to five years, with an average weighted maturity not to exceed two years.

2. Cash Deposits and Investments, continued

E. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Investments are made under the “prudent investor” standard outlined in Metro Government’s investment policy to ensure that (a) due diligence is exercised in accordance with State law, (b) any negative deviations are reported timely and (c) reasonable action is taken to control any adverse developments. Metro Government’s investment policy dictates that investments in commercial paper have a credit of rating of no less than ‘A1’ (or its equivalent) at the time of purchase.

F. Concentration of Credit Risk

Metro Government’s investment policy requires diversification of the overall portfolio to eliminate the risk of loss from an over-concentration of assets in a specific class of security, a specific maturity, and/or a specific issuer. The maximum percentage of the portfolio (book value at the date of acquisition) permitted in each eligible security is as follows:

U.S. Treasury Obligations	100%
Federal Agency Obligations	100%
Federal Agency Obligations (Callable)	50%
Repurchase Agreements	100%
Commercial Paper	*20%
Bankers' Acceptances	*20%
Collateralized/Insured Certificates of Deposit	50%
Uncollateralized Certificates of Deposit	*20%
Municipal Obligations	10%
Money Market Mutual Funds	100%

* The combined amount of these investments shall not exceed twenty percent of the total book value of the portfolio at the date of acquisition.

The investment policy dictates that the Metro Government portfolio will be further diversified to limit the exposure to any one issuer. No more than 5% of the Metro portfolio will be invested in the securities of any single issuer with the following exceptions:

	<u>Maximum</u>
U.S. Treasury	100%
Each Federal Agency	35%
Each Repurchase Agreement Counterparty	25%
Money Market Mutual Funds	50%

G. Revenue Commission

The bank balances at June 30, 2008, including cash with paying agents, were \$8,666,718. Of this amount, \$200,000 was covered by federal depository insurance. The remainder is collateralized by the bank holding deposits in the Revenue Commission's name.

The investment balances at June 30, 2008 of \$51,211,777 consists of money market mutual funds with JP Morgan Securities. Investments at JP Morgan had an average weighted maturity of approximately two months and a credit rating of Aaa as supplied by Moody's.

Custodial Credit Risk – Custodial credit risk for deposits and investments is the risk that, in the event of failure by a financial institution, the Revenue Commission may not be able to recover the value of its assets held by such financial institution. Except as follows, the Revenue Commission's investment policy states that all cash maintained in any financial institution be collateralized by certain types of investments. With the express approval of the Commissioners, the Revenue Commission may invest up to 10% of its investment portfolio in uninsured certificates of deposit at authorized financial institutions.

Interest Rate Risk – Interest rate risk is the risk that changes in the interest rates on investments will adversely affect their underlying fair market value. While the Revenue Commission's investment policy does not specifically address this matter, it has been management's practice to limit investment maturities in order to manage its exposure to reductions in fair value that may result from increasing interest rates.

Credit Risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Investments are made under the "prudent person rule" outlined in the Revenue Commission's investment policy. The policy states that "investments shall be made with judgment and care under prevailing circumstances, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment considering the probable safety of their capital as well as the probable income to be derived." The investment policy does not address diversification of the investment portfolio, but does provide the following guidelines on the types of investments that can be made.

In accordance with its investment policy, the Revenue Commission is permitted to invest in the following:

1. Obligations of the United States and of its agencies and instrumentalities, including obligations subject to repurchase agreements, provided that delivery of these obligations subject to repurchase agreements is taken either directly or through an authorized custodian.
2. Obligations and contracts for future delivery or purchase of obligations backed by the full faith and credit of the United States government.
3. Obligations of any corporation of the United States government.
4. Certificates of deposit issued by or other interest-bearing accounts of any bank or savings and loan institutions which are insured by the Federal Deposit Insurance Corporation or similar entity or which are collateralized, to the extent uninsured.

2. Cash Deposits and Investments, continued

5. Bankers' acceptances for banks rated in one of the three highest categories by a nationally recognized rating agency.
6. Bonds or certificates of indebtedness of the Commonwealth of Kentucky and of its agencies and instrumentalities.
7. Securities issued by a state or local government, or any instrumentality or agency thereof, in the United States, and rated in one of the three highest categories by a nationally recognized rating agency.

H. Fiduciary Funds

The Mass Transit Trust Fund is required to follow investment policies in accordance with KRS 66.480 (see the Mass Transit audit report for additional discussion of allowed investments). The Escrow and Deposit Fund is governed by the Metro investment policy described within this note.

The Firefighters' Pension Fund had deposits of \$574,643 at June 30, 2008. Of this amount, \$199,566 was covered by the Federal Depository Insurance Corporation (FDIC). The remaining \$375,077 was collateralized by securities held by the pledging financial institution. The Policemen's Retirement Fund had deposits of \$171,336 at June 30, 2008. Of this amount, \$114,580 was insured by the FDIC. The remaining \$56,756 was not insured or collateralized by securities held by a pledging financial institution.

The Firefighters' Pension Fund and Policemen's Retirement Fund are each governed by a Board of Trustees, which is ultimately responsible for the appropriateness of its investment policies and the execution of those policies to meet the funds' investment objectives. The Board's work in conjunction with investment managers and financial advisors to determine the appropriate asset mix within each investment type pursuant to asset allocation parameters set by the Boards. Investments are to be made with "care, skill and prudence" under the market circumstances prevailing at the time with the primary objectives of (a) preserving principal, (b) producing a combination of income and liquidity sufficient to meet monthly pension payment requirements and (c) on a long-term basis, producing real total returns sufficient to meet the lifetime pension requirements.

Both the Firefighters' Pension Fund and Policemen's Retirement Fund trustees desire a balanced portfolio diversified appropriately among the three primary asset classes of marketable securities: (1) liquid reserves, (2) fixed income securities, and (3) common stock. Allowable investments include domestic and international common stocks, government and corporate bonds, and short-term fixed income securities maturing in one year or less. All fixed income investments in the Firefighters' Pension Fund and Policemen's Retirement Fund must be rated Baa or greater at the time of purchase.

5. Land Held for Development

Land held for development at June 30, 2008 is summarized as follows:

	Riverport Authority
Land held for development	<u>\$ 7,069,261</u>

6. Risk Management

Metro Government is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; professional liability exposures; injuries to employees; and natural disasters. The Insurance and Risk Management Fund ("Fund"), an internal service fund, was established in 1976 to consolidate all of the former City's insurance or self-insurance under a comprehensive risk management program. Under merger, this program now includes all Metro Government departments including PARC and the former Jefferson County Fiscal Court Risk Management Fund established in 1974. The Fund consists of a comprehensive self-insurance program relating to the following:

- A. Automobile Liability: Self-insured up to \$500,000 per occurrence. Excess coverage is purchased through the Louisville Area Governmental Self-Insurance Trust ("LAGIT").
- B. Worker's Compensation (covering all employees): Self-insured up to \$1,000,000 per occurrence with a \$1,000,000 corridor. Excess coverage is purchased above this retained level.
- C. Unemployment Compensation: Completely self-insured.
- D. Group Health Coverage: Eligible Metro Government employees may participate in group health coverage through six PPO plans offered through Metro Government's health self-insurance fund, which is administered by Anthem Blue Cross and Blue Shield and Humana, Inc. Eligible members of the Fraternal Order of Police may participate in two separate PPO plans.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2008

6. Risk Management, continued

- E. General Liability: Various general liability exposures (including public official liability, law enforcement liability, medical professional liability, employers liability, and employment practices liability), self-insured up to a \$500,000 deductible per occurrence. Employer's liability has a \$1,500,000 per occurrence deductible (\$1,000,000 limit of liability above a \$500,000 self-insured retention is provided by an underlying commercial excess insurance policy). Excess coverage is purchased through LAGIT.
- F. Automobile Physical Damage: Excess coverage is purchased for catastrophic losses through Louisville Area Governmental General Insurance Trust ("LAGGIT") above a \$100,000 self-insured retention per occurrence.
- G. Real and Business Personal Property: Metro Government's property exposures are self-insured up to \$250,000 per occurrence, except for flood coverage which carries a deductible of \$250,000 in addition to the amount of insurance available under the National Flood Insurance Program, whether purchased or not. Excess coverage is purchased on a blanket limit basis under LAGGIT for up to \$250 million, subject to certain sub-limits for specific exposures.

Revenues come from either Metro Government's general fund or from interagency charges developed through an independent actuarial study each year. Revenues are forecasted to match expenses, which include estimated incurred losses for both known and incurred but not reported claims, premiums for excess insurance coverage to complement the self-insurance programs, various taxes and assessments, and administrative operating expenses.

It is Metro Government's policy to fund its reserves for all property and liability exposures by charging to expense the estimated reserve amounts anticipated for claims reported during the fiscal year in which the claim occurs. An additional expense is charged at the end of the fiscal year for claims which are anticipated to have occurred during the fiscal year, but have not yet been reported.

In addition to the comprehensive self-insurance programs mentioned above, Metro Government purchases various types of primary insurance coverage, including government crime coverage (employee dishonesty and faithful performance coverage), aircraft and watercraft liability and hull coverage, and long-term disability coverage for full-time employees.

The claims liability of \$24,229,250 reported in the Fund at June 30, 2008, is based on the requirements of GASB Statement No. 30, *Risk Financing Omnibus*. Claims liabilities are estimates of the ultimate cost of reported claims (including future claim adjustment expenses) and an estimate for claims incurred but not reported based on historical experience. Claims liabilities include specific, incremental claim adjustment expenses; allocated loss adjustments; and are reduced for estimated recoveries on unsettled claims.

LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2008

6. Risk Management, continued

Changes in the Fund's claims liability amount in fiscal years 2007 and 2008 were as follows:

Year ending June 30	Beginning Balance	Claims and Changes in Estimates	Claim Payments	Ending Balance
2007	\$ 20,588,003	\$ 53,843,407	\$ 49,432,083	\$ 24,999,327
2008	24,999,327	48,823,549	49,593,626	24,229,250

The liability associated with the health self-insurance fund as of June 30, 2008 is \$3,900,000 and is included as a liability in the Insurance & Risk Management Internal Service.

Metro Government is also a member of LAGIT (for liability exposures) and a member of LAGGIT (for property exposures) which are separate risk-sharing mechanisms formed for public entities located in Jefferson County, Kentucky. The Metro Risk Management Division has the administrative responsibility for actual operations of LAGIT and LAGGIT and independently audited financial statements of each trust are available through the Metro Government Department of Finance.

Metro Government's annual administrative fee for LAGIT was \$97,988, of which \$20,913 was transferred to the County Attorney's Office for legal services. \$20,000 of the administrative fee was paid by the Trust directly to Risk and Insurance Solutions, LLC for administrative services delegated by Metro Government to this professional services company. Consequently, Metro Government received \$77,988, inclusive of fees transferred to the County Attorney for services.

Metro Government's annual administrative fee for LAGGIT was \$53,155, of which \$8,333 was paid directly by the Trust to Risk and Insurance Solutions, LLC for administrative services delegated by Metro Government to this professional services company.

Metro Government has not had any settled claims that have exceeded the above coverage amounts in any of the past three fiscal years.

The LWC, Riverport, LSC, MSD and TARC have established and administer various insurance and self-insurance programs in the areas of Automobile Liability, General Liability, Employee Dishonesty, Workers' Compensation and Real and Personal Property with various retentions and deductibles to protect their assets.

Excess insurance for automobile liability and general liability, as well as real and personal property, are maintained through the LAGIT and LAGGIT programs for MSD and TARC.

Metro Government, by contract, is responsible for LSC's primary general liability exposures; therefore they are also members of LAGIT.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2008

7. Short-Term Debt

On July 1, 2007, the Escrow and Deposit Fund re-issued the Amended and Restated General Obligation Bond Anticipation Note, Series 2007A for \$3,500,000. The note is held in the Escrow and Deposit Fund because the nature of the note is fiduciary. This note was issued for public improvements related to projects originally authorized by the Series 2001A Bonds, and is renewable annually. The note was issued to cover any potential liabilities associated with the development projects authorized by the Series 2001A Bonds. The original note was issued by Metro Government in the principal amount of \$3,500,000 and dated on original issuance as of January 30, 2004. The interest on the original note made by Metro Government has been paid in full through June 30, 2008. The following table outlines activity on the note during fiscal year 2008:

Year ending June 30	Beginning Balance	Additions	Reductions	Ending Balance
2008	\$ 3,500,000	\$ 3,500,000	\$ 3,500,000	\$ 3,500,000

8. Long-Term Debt

A. Primary Government

Upon merger, Metro Government assumed all long-term debt of the former City of Louisville and Jefferson County. Prior to merger, the City and County each issued General Obligation Bonds and First Mortgage and Lease Revenue Bonds and notes to provide funds for the acquisition and construction of major capital facilities or to refund prior bond issues. The General Obligation Bonds are direct obligations and pledge the full faith and credit of Metro Government.

There are \$227,992,000 of General Obligation Bonds outstanding at June 30, 2008. The primary collateral for the General Obligation Bonds are the occupational license tax and net profits license tax collected by the Revenue Commission. The Revenue Commission is the fiscal agent for general obligation bonded debt issued by the City of Louisville before January 6, 2003, and by Metro Government thereafter. Metro Government is the fiscal agent for general obligation bonded debt issued before January 6, 2003 by Jefferson County Fiscal Court. Metro Government's general fund is contingently liable as guarantor of the general obligation bonded debt.

In November 2004, Metro Government issued \$5,655,000 of General Obligations Bonds, Series 2004B for the purpose of financing capital improvements of designated parking facilities for PARC. PARC has entered into an operating sublease agreement with Metro Government to provide payment in amounts equal to the debt service on the series 2004B bonds. The sublease is renewable annually through fiscal year 2025 at the option of PARC.

Pursuant to the Internal Revenue code of 1986, as amended, Metro Government computes rebateable arbitrage on each of its outstanding bonds a minimum of every five years and at maturity. Metro Government has covenanted to rebate excess earnings on invested bond proceeds to the United States Treasury for each five-year computation period in accordance with the law. There was no arbitrage rebate liability for Metro Government at June 30, 2008.

B. Discretely Presented Component Units

i. Louisville Water Company

LWC had \$69,490,000 in Water System Revenue Bonds, Series 2000, \$35,565,000 in Water System Refunding Bonds, Series 2001, \$83,345,000 in Water System Revenue Bonds, Series 2006, and \$55,000 in various Kentucky Infrastructure Authority loans and notes outstanding at December 31, 2007.

The Series 2000 bonds mature annually in amounts ranging from \$2,420,000 to \$5,870,000 from November 15, 2008 through 2025 and bear interest at rates ranging from 5.0% to 5.5%. The Series 2001 bonds mature annually in amounts ranging from \$4,380,000 to \$5,845,000 from November 15, 2008 through 2014 and bear interest at rates ranging from 4.0% to 4.7%. The Series 2006 bonds mature annually in amounts ranging from \$1,725,000 to \$5,470,000 from November 15, 2008 through 2031 and bear interest at rates ranging from 4.0% to 5.0%.

iii. Louisville and Jefferson County Riverport Authority

On December 27, 2005, Riverport borrowed \$63,000,000 for the purchase of certain assets. The note has a fixed interest rate of 6% and is to be paid in annual installments of principal and interest based on an amortization of 30 years. The first installment was paid on December 27, 2005 with each subsequent installment due on December 27 of each year. The entire outstanding principal balance of the indebtedness, plus all accrued but unpaid interest, is due and payable on December 27, 2010. The property purchased with this note was leased back to the seller of the property through a direct financing lease. The outstanding principal balance was \$60,532,965 and interest expense on this note was \$3,687,068 for the year ended June 30, 2008.

Annual debt service requirements for the loan payable are as follows (in thousands):

Balances for claims and judgments include \$24,229,250 reported in the Insurance and Risk Management Fund, an internal service fund.

**LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2008**

9. Capital Lease Obligations

Primary Government

Jefferson County Fiscal Court financed the purchase of radio equipment for its public works department through a capital lease obligation of \$944,652, which has been assumed by Metro Government. The obligation requires quarterly payments of principal and interest of \$24,297 through September 2012. The interest rate of the obligation is 6.20%.

Annual debt service requirements to maturity for capital leases are as follows:

Year ending June 30	Principal	Interest	Total
2009	\$ 76,585	\$ 20,604	\$ 97,189
2010	81,445	15,744	97,189
2011	86,613	10,576	97,189
2012	92,109	5,080	97,189
2013	23,926	371	24,297
Totals	<u>\$ 360,678</u>	<u>\$ 52,375</u>	<u>\$ 413,053</u>

10. Conduit Debt Obligations

Metro Government occasionally issues Industrial Revenue Bonds to assist local private-sector entities in financing new or expanded industrial, commercial or residential facilities deemed to be in the public interest. The bonds are collateralized by the facilities financed with the bond proceeds and are payable solely from a pledge of revenues to be derived from those facilities. The bonds and related interest do not represent or constitute an indebtedness of Metro Government or a pledge of faith and credit of Metro Government or any political subdivision thereof. Accordingly, the bonds and related assets are not included in Metro Government's financial statements.

11. Interfund Receivables, Payables, and Transfers

Interfund receivable and payable balances at June 30, 2008, are as follows:

<u>Due From/To Other Funds</u>	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
Fund		
General	\$ 29,355,724	
Other Governmental	640,761	
Agency:		
Revenue Commission	13,247,914	
Escrow & Deposit		\$ 180,505
Mass Transit	3,791,197	
Internal Service:		
Revenue Commission		46,855,091
Totals	<u>\$ 47,035,596</u>	<u>\$ 47,035,596</u>

LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2008

11. Interfund Receivables, Payables and Transfers, continued

These balances resulted from the time lag between the dates that 1) interfund goods and services are provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system, and 3) payments between funds are made.

Interfund transfers during the fiscal year ended June 30, 2008 were as follows:

	<u>Interfund Transfers</u>			
	<u>Transfers out:</u>	<u>Transfers in:</u>		
	<u>General Fund</u>	<u>Capital Projects Fund</u>	<u>Nonmajor Governmental Funds</u>	<u>Total</u>
General Fund		\$ 21,100,433	\$ 49,782,151	\$ 70,882,584
Special Revenue Fund	\$ 665,083		337,517	1,002,600
Capital Projects Fund	44,515		112,857	157,372
Nonmajor Governmental Funds	196,623	187,367		383,990
Total transfers out	<u>\$ 906,221</u>	<u>\$ 21,287,800</u>	<u>\$ 50,232,525</u>	<u>\$ 72,426,546</u>

Transfers are used to 1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, 2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and 3) move unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

12. Customer Contributions for Water Pipeline Construction

The LWC requires consumers to make a deposit for the cost of construction of pipelines and special services. These advances are refundable, within certain time limits up to 20 years, under the terms of the various contracts.

The customer advances for construction account reflects the liability for probable refunds of construction advances at some future date. When the period during which the refund can be made has expired, any balance is transferred to contributions in aid of construction.

The cost of construction of pipelines and services paid for by the customers, which are not refundable, are reported on the statement of net assets as restricted for capital projects. The net increase in this account during the year totaled \$19,716,903 and is shown on the statement of revenues, expenses and changes in net assets as non-operating revenue.

13. Contingencies and Commitments

A. Litigation

The Metro Government has been named as a defendant in various legal actions, but the ultimate outcome of these various legal actions cannot be determined with certainty. Management does not anticipate that such actions will have a material impact on the financial position of Metro Government.

A final resolution has not been decided on all litigation regarding the computation of overtime pay for firefighters in previous years. The Kentucky Supreme court has recently denied Metro Government's request to overturn a portion of this lawsuit, and

**LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO THE FINANCIAL STATEMENTS**

June 30, 2008

13. Contingencies and Commitments, continued

now the state labor cabinet will have to calculate what amount should have been paid based on a court-approved formula. Metro Government estimates that the claim could result in an approximate liability of \$17 million, but the final computation and payment terms have not been decided and matters regarding this case are still before the court.

B. Federal and State Grants

In the course of operations, Metro Government receives grant funds from various federal and state government agencies to be used for designated purpose only. The grant programs are subject to audit by agents of the granting authorities, the purpose of which is to insure compliance with conditions surrounding the granting of funds. If a grantor's review indicates that the funds have not been used for the intended purpose, the grantor may request a refund of monies advanced or refuse to reimburse Metro Government for its expenditures. In management's opinion, any liability for any refunds or reimbursements which may arise as a result of audits of grant funds would not have a material impact on the financial position of Metro Government. Continuation of Metro Government's grant programs is predicated upon the grantor's satisfaction that the funds provided are being spent as intended and the grantor's intent to continue their programs.

C. Lease and Sublease Agreement, University of Louisville Stadium Bonds

In 1997 Jefferson County issued \$18,500,000 in bonds, which were used to pay for a portion of the cost of constructing the University of Louisville Papa John's Cardinal Stadium. The University of Louisville Athletic Association ("ULAA") had agreed to pay all principal, interest, and premiums on the bonds and to maintain and insure the project so long as any bonds remained outstanding. However, pursuant to the terms of a lease and sublease agreement, in the event that the ULAA did not make the debt service payments, Metro Government was to pay for all principal, interest, and premiums on the bonds, subject to a maximum financial obligation in any fiscal year of \$2 million.

On August 5, 2008, Metro Government issued its \$39,775,000 Louisville/Jefferson County Metro Government Mortgage Revenue Refunding and Improvement Bonds, Series 2008A, a portion of which was used to redeem the remaining outstanding Series 1997 bonds. Upon issuance of the 2008A bonds, all contingent obligations pursuant to the 1997 lease and sublease with ULAA were terminated. All payments of principal and interest on the 2008A bonds are the responsibility of ULAA exclusively.

D. Construction Commitments

The Metro Government has active construction projects as of June 30, 2008. The projects include improvements to major roadways, government buildings, parks, and other various ongoing projects.

14. Deferred Compensation

Metro Government, LWC and MSD offer their employees deferred compensation plans created in accordance with Internal Revenue Code Section 457. MSD also offers their employees a deferred compensation plan created in accordance with Internal Revenue Code Section 401(k). The plans, available to all employees, permit them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

Continued

LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT

NOTES TO THE FINANCIAL STATEMENTS

June 30, 2008

14. Deferred Compensation, continued

GASB Statement No. 32, Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans allows entities with little or no administrative involvement who do not perform the investing function for these plans to omit plan assets and related liabilities from the statement of net assets. Metro Government, the LWC and MSD therefore do not show these assets and liabilities on their respective statements of net assets.

15. Post-Employment Health Care Benefits

Retired Metro Government employees receive some health care benefits depending on their length of service. In accordance with Kentucky Revised Statutes, these benefits are provided and advanced-funded on an actuarially determined basis through the County Employees' Retirement System. As outlined in their respective union contracts, retired firefighters and policemen covered under the Pension Trust Funds may continue health care and life insurance through Metro Government, but they bear the full cost of premiums.

16. Landfill Closure and Post-closure Care Costs

Metro Government owns three landfill sites that were operated by the former City of Louisville, which are closed and not accepting waste. State and federal laws and regulations require certain maintenance and monitoring functions at the sites for 30 years after closure.

If the landfills were still in operation, Metro Government would be required to report a portion of the closure and post-closure care costs as an operating expense in each period based on landfill capacity used as of each fiscal year end.

Because all landfills were closed in prior years, 100% of landfill closure and post-closure care costs, estimated at \$1,747,462, were recorded as an expense and corresponding liability at June 30, 1995, in the Capital Cumulative Reserve Fund of the former City, which is now reported as Metro Government's Major Capital Projects Fund. Payments and changes in estimates have decreased this liability from prior years to \$59,375 at June 30, 2008. Future costs may vary from that amount because of inflation, changes in technology, or changes in regulations.

17. Pension Plans

A. County Employees' Retirement System

i. Plan Description

Metro Government, the LWC, TARC, Riverport, MSD, and the Revenue Commission contribute to the County Employees Retirement System ("CERS") which is a cost-sharing multiple-employer defined benefit pension plan administered by Kentucky Retirement Systems, an agency of the Commonwealth of Kentucky. The CERS provides for retirement, disability and death benefits to plan members and beneficiaries. The Kentucky Retirement System issues a publicly available financial report that includes financial statements and required supplemental information for CERS. That report may be obtained by writing to the Kentucky Retirement Systems, 1260 Louisville Road, Frankfort, Kentucky 40601-6124.

Continued

LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2008

17. Pension Plans, continued

ii. Funding Policy

Plan members are required to contribute 5% (8% for participants in the Hazardous Duty Plan) of creditable compensation and employers are required to contribute at an actuarially determined rate. The rate as of June 30, 2008, is 16.17% (33.87% under the Hazardous Duty Plan) of participating employees' compensation. The contribution requirements of employers and plan members are established and may be amended by the CERS Board of Trustees. Both plans are fully funded annually.

Metro Government's contribution to the CERS for the years ending June 30, 2008, 2007, and 2006 were \$65,286,334, \$54,511,578, and \$44,565,067, respectively.

Contributions of Metro Government's Component Units are as follows:

- LWC's contributions to the CERS for years ending December 31, 2007, 2006, and 2005 were \$3,868,200, \$3,411,290, and \$2,888,640, respectively.
- TARC's contribution to the CERS for the years ended June 30, 2008, 2007, and 2006 were \$4,410,909, \$3,457,984, and \$2,738,701, respectively.
- Riverport's contribution to the CERS for the years ended June 30, 2008, 2007, and 2006 were \$52,147, \$43,954, and \$33,160, respectively.
- MSD's contribution to the CERS for the years ended June 30, 2008, 2007, and 2006 were \$5,482,000, \$4,221,000, and \$3,288,000, respectively.
- The Revenue Commission's contribution to the CERS for the years ended June 30, 2008, 2007, and 2006 were \$324,000, \$288,000, and \$255,000, respectively.

B. Fire and Police Pension Trust Funds

i. Plan Descriptions

Most of the former City's firemen and policemen transferred to CERS in 1989 and 1986, respectively. For those who did not transfer, Metro Government contributes to the Firefighters' Pension Fund and the Policemen's Retirement Fund. Both of these are single employer defined benefit pension plans. These plans do not issue reports on a stand-alone basis.

The Funds provide retirement, death, and disability benefits. A member may retire under the provisions of the Firefighters' Pension Fund after reaching the age of 62 or having completed 20 years of service (25 years of service if hired after July 1, 1984). A member may retire under the provisions of the Policemen's Retirement Fund after reaching age 62 or having completed 20 years of service (25 years of service if hired on or after April 1, 1985). Employee accounts vest after 10 years of service under the Firefighters' Pension Fund and 5 years under the Policemen's Retirement Fund.

Employees who retire with 20 years of service are eligible to receive 50% of their three-year average salary (25 years of service are eligible to receive 56% of their three-year average salary, if hired after July 1, 1984) under the Firefighters' Pension Fund. The three-year average salary is the sum of the three highest fiscal years of annual base salary plus overtime and supplemental pay. Under the Policemen's

Continued

NOTES TO THE FINANCIAL STATEMENTS**

June 30, 2008

17. Pension Plans, continued

Retirement Fund, employees who retire at or after age 62 with 5 or more years of service are entitled to receive payments for the remainder of their lives equal to 2% of their three-year average base salary times the number of years of service. Both Funds provide up to a maximum of 75% of the three-year average salary as the length of service increases. Upon termination, employees having completed 10 years of service but not considered eligible for normal retirement, shall receive a refund of contributions without interest under the Firefighters' Pension Fund. Under the Policemen's Retirement Fund, an employee who completes 5 years of service but is not yet eligible for normal retirement shall receive three-fourths of his contributions to the Fund without interest, upon termination.

Both Funds include death and disability benefits whereby the surviving spouse or disabled employee is entitled to receive certain benefits. Death benefits may reach 75% of base pay (at time of death) plus overtime and supplemental pay for firefighters and 75% of base pay for policemen. Disability payments may reach 75% of base pay (at time of disability) plus overtime and supplemental pay for firefighters and 75% of base pay for policemen. Under both Funds, the disabled employee is entitled to receive disability payments for life, while the surviving spouse may receive death benefits for life or as long as the spouse does not remarry.

Membership of each plan consisted of the following at June 30, 2008:

	<u>Firefighters' Pension Fund</u>	<u>Policemen's Retirement Fund</u>
Retirees and beneficiaries currently receiving benefits and terminated employees not yet receiving benefits	245	203
Vested active plan participants	0	1

ii. Summary of Significant Accounting Policies and Plan Asset Matters

Basis of Accounting - The preparation of the financial statements of the Firefighters' Pension Fund and the Policemen's Retirement Fund generally conform to the provisions of the GASB Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*. The financial statements of the Funds are prepared on the accrual basis. Plan member contributions are recognized in the period in which the contributions are due. Metro Government's contributions are recognized when due and a formal commitment to provide the contributions has been made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. The cost of administering the plans is financed by Metro Government and is based on budgets submitted by the administrators on an annual basis.

Investments - Investments are stated at fair value. Securities traded on a national exchange are valued at the last reported sales price. Gains or losses on the sale of fixed income securities are recognized using the completed transaction method. There are no significant investments (other than U.S. Government and U.S.

17. Pension Plans, continued

Government Agencies) in any one organization that represents 5% or more of net assets available for benefits. There are no investments or other assets legally reserved for purposes other than the payment of member benefits for either Fund.

iii. Contributions

The contribution requirements and benefit provisions for the Funds are established by state statute and Metro Government ordinance. Employees covered under the Firefighters' Pension Fund were required to pay 7.0% of their gross earnings to the Fund. The employee contribution rate is 6.5% for the Policemen's Retirement Fund. Metro Government contributed the required amount to the Firefighters' Pension Fund and the Policemen's Retirement Fund for each of the past three fiscal years.

For the fiscal year ended June 30, 2008, there were no net pension obligations for the Policemen's Retirement Fund or the Firefighters' Pension Fund.

Based on the actuarial valuations performed by consulting actuaries at January 1, 2008, Metro Government is required to make contributions to the Policemen's Retirement Fund of \$1,396,080 and to the Firefighters' Pension Fund of \$1,863,306 for the fiscal year beginning July 1, 2008. Actuarial assumptions and other information used to determine the annual required contributions are presented in the following table:

LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2008

18. Subsequent Events

On September 3, 2008 the Kentucky Economic Development Authority issued \$349,218,518 Louisville Arena Project Revenue Bonds, Series 2008. The proceeds from these bonds will be used to fund acquisition, develop, construct, and finance the Arena Project in downtown Louisville, a public project intended for multiple uses as a public recreational, cultural, and sports facility. Pursuant to Metro Government Ordinance 143, Series 2007, Metro Government agrees to pay up to \$309,000,000 to or on behalf of the Arena Authority over 30 years beginning in 2010. Metro Government's minimum and maximum annual guaranteed payments are as follows:

Years	Minimum Annual Guaranteed Payments	Maximum Annual Guaranteed Payments
2010-2019	\$6,533,333	\$9,800,000
2020-2029	\$7,200,000	\$10,800,000
2030-2039	\$6,866,667	\$10,300,000

In December 2008, Metro Government issued \$44,000,000 of General Obligation Bond Anticipation Notes ("BAN"). The Series 2008A notes will mature in full on December 1, 2009. Proceeds from the Series 2008A notes will be used for the purpose of acquiring, constructing and equipping various municipal improvements of Metro Government in accordance with the Metro Government Capital Improvements Budget. Specifically, some proceeds of this BAN will be used to purchase land related to the City Center Project.

In March 2009, PARC will be issuing \$39,000,000 of First Mortgage Revenue Bonds, Series 2009A, maturing on December 1, 2039 and \$17,500,000 of First Mortgage Revenue Refunding Bonds, Series 2009B, maturing on December 1, 2020. The Series 2009A Bonds will be used for the purpose of acquiring, constructing and equipping the Louisville Arena Parking Garage as well as funding additional capital expenditures for public parking and garage facilities. The Series 2009B Bonds will be used for refinancing the outstanding First Mortgage Revenue Refunding Bonds, Series 1997.

Statistical Section

This part of the Metro Government's CAFR presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about Metro Government's overall financial health.

<u>Contents</u>	<u>Page</u>
Financial Trends	92-96

These schedules contain trend information to help the reader understand how the city's financial performance and well-being have changed over time.

Revenue Capacity.....	97-102
------------------------------	---------------

These schedules contain information to help the reader assess Metro Government's most significant local revenue sources: Occupational and Property taxes.

Debt Capacity.....	103-107
---------------------------	----------------

These schedules present information to help the reader assess the affordability of Metro Government's current levels of outstanding debt and Metro Government's ability to issue additional debt in the future.

Demographic and Economic Information	108-110
---	----------------

These schedules offer demographic and economic indicators to help the reader understand the environment within which Metro Government's financial activities take place.

Operating Information	111-112
------------------------------------	----------------

These schedules contain service and infrastructure data to help the reader understand how the information in Metro Government's financial report relates to the services Metro Government provides and the activities it performs.

(1) For the implementation of GASB Statement No. 44, *Economic Condition Reporting: The Statistical Section*, GASB recommends reporting ten years of statistical and demographic information. Since the former City of Louisville and the former Jefferson County Fiscal Court merged on January 6, 2003, Metro Government is implementing this pronouncement beginning with the year of merger in order to avoid comparability issues.

(2) Amounts reported for fiscal years 2003 - 2007 have been restated to conform with current year presentation.

Levies do not include autos. These are levied and collected by the County Clerk's Office as required by KRS Chapter 134 and Louisville City Ordinance #185, Series 1984.

- (1) For the implementation of GASB Statement No. 44, *Economic Condition Reporting: The Statistical Section*, GASB recommends reporting ten years of statistical and demographic information. Since the former City of Louisville and the former Jefferson County Fiscal Court merged on January 6, 2003, Metro Government is implementing this pronouncement beginning with the year of merger in order to avoid comparability issues.
- (2) Beginning in fiscal year 2003, Metro Government began reflecting delinquent tax information as it relates to total property tax collections in a given year within the statistical section of the financial statements.

Note: Metro Government makes annual lease payments in amounts sufficient to pay the required principal and interest payments on the First Mortgage Revenue Bonds and the Lease Revenue Bonds.

(1) For the implementation of GASB Statement No. 44, *Economic Condition Reporting: The Statistical Section*, GASB recommends reporting ten years of statistical and demographic information. Since the former City of Louisville and the former Jefferson County Fiscal Court merged on January 6, 2003, Metro Government is implementing this pronouncement beginning with the year of merger in order to avoid comparability issues.

(2) Gross revenues include lease income and nonoperating interest income in debt service and debt service reserve funds.

(3) Fiscal year 2005 excludes \$225,000 in refunded principal on the First Mortgage Revenue Bonds paid from a pre-funded escrow account. Fiscal year 2006 excludes \$685,000 in refunded principal and \$105,000 in current principal due on the First Mortgage Bonds paid from proceeds of capital asset sales.

(4) In fiscal year 2007, excess revenues received for the Lease Revenue Bonds were paid to an escrow agent as partial payment in the refunding of all the outstanding Series 1997 Lease Revenue Bonds.
