

South Park Use Area Enhancements

The proposed South Park Use Area improvements include a relocated park entry and an extensive equestrian complex that will be open to the public. The proposed equestrian complex consists of a new indoor training facility, a refurbished barn, horse paddocks, and parking for cars and trailers. The tree-lined park road provides a sense of arrival, and a shared use trail will enable pedestrians and bicyclists to access several areas of the park, including the soccer complex at the East Park Use Area.

Total Spaces: 25 Cars & 11 Trailers
